Mission - Vision

The ACAT mission is to partner with our customers and suppliers to help them increase productivity, reduce costs and minimize risk by providing the best, innovative and sustainable technical solutions.

The ACAT vision is to be the most successful and respected specialty chemical company within our markets:

- **PROFIT:** Maximize long-term return to shareholders and employees while being mindful of our responsibilities
- **TEAM:** Be a great place to work where people are inspired and proud of themselves and their achievements
- **PARTNERS:** Building up a winning network from customers to suppliers to create long-term, enduring values
- **PRODUCTIVITY:** Be a highly effective, lean and fast-moving organization
- **SUSTAINABILITY:** Be a sustainable organization creating long-term values
- **ENVIRONMENT:** Be a responsible organization helping build and support sustainable living

„This oak was planted on the occasion of the founding of Applied Chemicals on December 24th, 1994. As a sign of stability, continuity and closeness to nature it should accompany the development of the company.“

*FROM NOTHING COMES NOTHING,
PATIENCE CONQUERS ALL!*

Company

The ACAT Group is 100% family owned. This means we are one of the few independent private companies in the chemical service industry in Europe. We also have International divisional structures which direct operational issues. In this way, we provide our customers with international expertise and a partner with local experience offering flexible and individual solutions.

1994 Founding Applied Chemicals International AG

1947 Foundation of the Company by Erland O. Bjöörn,
trading with pulp and paper

We stock a wide range of additives and specialty chemicals for various applications ready for you. Our products are usually available at short notice and in many packaging units. They are used in the paint and coatings industry as well as in the adhesives, building materials, plastics, and many other industries and sectors.

- Defoamers
- Powder Additives
- Wetting and Dispersion Agents and Additives
- Mineral Flame Retardants
- Thickeners and Rheology Additives
- Pigments and Fillers
- Agricultural Products
- Wachs

Whether drinking water or wastewater treatment - we provide all the usual fine chemicals as well as specialty products along with the associated expert knowledge ensuring the correct application.

- Flocculants and Coagulants
- Ferric and Aluminium Salts
- Odour Control
- Defoamers and Deaerators
- Specialty Products
- Make up and Dosing Systems

Choose from a wide range of systems and technologies - from odour measurement systems to microbiological products suitable for use in the oil, gas and asphalt industry, pharmaceutical industry, food processing and production, as well as agriculture, waste treatment, metal production, and leather processing.

- Odour Control Aids and Application Systems for Several Industries
- Odour Control Aids for Commercial Applications
- Biochemical Products and Compost Additives

Choose from our extensive range of highly effective chemicals and minerals, innovative treatment and dosing equipment, and professional services in the field of paper technology.

- Dry Strengths Products
- Fixing Agents and Coagulants
- Bentonites
- Retention Aid Systems
- Flocculants
- Defoamers and Deaerators
- Specialty Products
- Processing and dosing systems for chemicals

Technics & Production Center Scheibbs

In addition to the core topic of plant engineering, we also operate a production of odour control agents in Scheibbs - Ecosorb for the industry and Skyvell for commercial enterprises.

- Odour Neutralization Production
- Plant Engineering
- Conception and Design of Industrial Plants
- Planning of Process Control Systems

*Together for
our environment.*
